

VOLUNTEER LEADERSHIP PROGRAM LETTER OF SUPPORT

A letter of support from the applicant's direct supervisor is required for participation in the SDMS Foundation Volunteer Leadership Program. This biennial program is designed to mentor sonographers as future leaders within the SDMS by offering exposure to the organization's volunteer and governance structure, as well as opportunities to engage with experienced leaders and subject matter experts. Participants will take part in a variety of leadership and volunteer-focused activities, with the goal of preparing them for future service within the Society. The program culminates with the opportunity for all participants to be considered for future SDMS volunteer positions, with one member of the cohort selected to attend the SDMS and SDMS Foundation Board of Directors Fall and Spring meetings as a guest. Applicants will be asked to upload this letter as part of the application process.

Applicant Name _____

Employer _____

Direct Supervisor Name _____

Direct Supervisor Email _____

Direct Supervisor Phone _____

What makes this individual a strong candidate for the Volunteer Leadership Program? *(attach additional page, if needed)*

Please describe the individual's leadership potential, including relevant examples if available. *(attach additional page, if needed)*
