THE SDMS

Founded in 1970, the Society of Diagnostic Medical Sonography (SDMS) is a professional membership organization dedicated to promoting, advancing, and educating its members and the medical community in the science of diagnostic medical sonography. Today, the SDMS is the largest association of sonographers and sonography students in the world.

The SDMS provides sponsorship and advertising opportunities that enable your organization to promote your products and services while supporting the sonography community. Opportunities range from $500 to $15,000 and are designed to maximize your exposure.

Partner with the SDMS today to deliver your organization’s message through our sponsorship and advertising opportunities.

SDMS VIRTUAL CONFERENCE

Held in the spring, the SDMS Virtual Conference is a travel-free, online-only learning experience that enables sonographers, sonography students, and physicians from around the world to network and learn. In addition to earning SDMS CME credits, the educational program provides attendees with knowledge and skills in new sonographic techniques, diagnostic accuracy, enhancements of sonographic instrumentation, and practice management strategies.
The SDMS Virtual Conference was born out of necessity when the SDMS Annual Conference was forced online due to the COVID-19 pandemic. Offered free to SDMS members in celebration of the SDMS’ 50th anniversary, the event was extremely popular and received high ratings from attendees. In response to overwhelming feedback from members that they desired a similar virtual conference experience in the future, the SDMS decided to make the event an annual occurrence. While registration for the event will not be free going forward, we still anticipate strong demand since the event offers a way to earn SDMS CME credits without travel or post-tests.
