

Kimberly Michael, MA, RT(R), RDMS, RVT, FSDMS

Director, SDMS Board of Directors

Kimberly is the Associate Director Interprofessional Academy of Educators, Office of Academic Affairs, a Joseph & Darlene Anderson Distinguished Professor, College of Allied Health Professions, an Associate Professor with Tenure, Department of Medical Imaging and Therapeutic Sciences, and the Program Director, Diagnostic Medical Sonography, Department of Medical

Imaging and Therapeutic Sciences, College of Allied Health Professions at the University of Nebraska Medical Center in Omaha, Nebraska.

The patient interaction, being part of the diagnostic process, and the variety of exams made sonography an appealing career to Kimberly. "No day in clinic was ever dull," said Kimberly. "As I said "yes" to opportunities to serve as a clinical preceptor, a clinical coordinator and finally a program director, my focus shifted to education and my students. I encourage you to say 'yes' to new experiences. There are so many possibilities and opportunities in the field of sonography. You never know where they may lead you."

Kimberly holds a Bachelor of Science in Radiation Science Technology from the University of Nebraska Medical Center and a Master of Arts from the University of Nebraska at Omaha. She is an SDMS Fellow and an Innovative Practices in Education Award recipient from the University of Nebraska Medical Center.
