

# Stephanie Ellingson, MS, RDMS, RDCS, RVT, RT(R)

Director, SDMS Board of Directors

Stephanie is the Program Director of Diagnostic Medical Sonography Education for Carver College of Medicine, Radiation Sciences at the University of Iowa in Iowa City, Iowa. With over 25 years at the University of Iowa, she has taught many different courses including OB/GYN, Abdomen, Vascular, and Cardiac. Stephanie truly enjoys physics and she has taught

Sonography Principles, Physics, and Instrumentation each of those 25+ years. She strives to demonstrate physics application in image optimization and accuracy with every sonographic exam.

Being a part of the diagnostic team that helps to solve healthcare questions for patients is what attracted Stephanie to sonography. "I chose sonography as a career because it is a wonderful healthcare profession that combines the practice of problem solving skills, knowledge of anatomy and pathology, use of imaging technology, and compassion for patients," said Stephanie. "I always strive to do my best and I know that the patient's care is my responsibility. I hope that I've been able to develop that same level of commitment in every sonography graduate I've had the pleasure to teach over the years."

Stephanie holds a Master of Science from California State University – Hayward.
